

Sheep and Goat Update

Performance 13% Ewe Developer

Ewe Maker is an economical textured sheep feed designed for maintaining weight on pregnant and open ewes without adding to much condition. With a 13% Protein 3% fat ewe maker is formulated with probiotics and antioxidants to support a healthy immune system. Highly palatable to keep ewes on feed throughout the year.

Performance 15% Lamb Creep B35

Extra Lamb is designed with the growing lambs in mind. Highly palatable corn and pellet dense textured feed allows to start lambs on grain as early as possible. Formulated with antioxidants and prebiotics to promote a healthy immune system as well as a strong digestive tract. Pelleted Bovatec is added for even feed mixing and consumption to provide protection against coccidiosis. Added Ammonium chloride to keep a healthy urinary tract. Elevated Calcium and Phosphorus levels to promote a healthy skeletal system.

Performance Sheep and Goat

Coming from the Witmer feed Line, this popular sheep and goat feed is perfect for comingled sheep and goats on farms making feeding more convenient. Lower copper levels making it sheep for goat. Heavy molasses and flavoring makes it highly palatable for sheep and goats of all life stages. Ammonium chloride is added to help with preventing urinary calculi.

Performance 14% Goat

Also coming from the Popular Witmer feed line, Performance 14% Goat is an economical choice for goats that are on quality hay or rich pasture that would benefit from a lower protein feed. A finer textured feed that is designed to feed as a maintenance feed that provides basic nutrient requirements.

Performance 18% Goat

A high Protein Goat Feed to develop large frame and muscle on growing goats with out putting extra condition. This feed is made up of an almost even rate of pellets and corn with added oats and cottonseed hulls for increased fiber. Formulated with ammonium chloride to maintain a healthy urinary tract as well as technologies such as pre and pro biotics for optimum immune and digestive health.
