*from the makers of*

**STAR★GLO**

*The Ultimate Top-Dress*

*A source of live organisms for sheep,  
 goats, hogs and cattle.*

Starmaster Show Feeds has known for years what it takes to make champion show animals....the right combination of all the puzzle pieces.

Star-Glo Top Dress is one such puzzle piece and has done a fantastic job of creating the best possible outcome on the the **outside** of the animal.

Now, Starmaster Show Feeds introduces another puzzle piece, for the **inside** of the animal.

STAR Igniter provides.

- ★ Multiple sources of digestion enhancers
- ★ Prebiotics and Probiotics
- ★ L-arginine - a natural vascular dialator
- ★ An all-natural approach to replacing hard-to-get antibiotics

With increasing difficulty in accessing needed antibiotics, it's more important than ever to create and maintain a healthy animal. STAR Igniter helps develop the best environment for beneficial microbes in the digestive tract while helping to eliminate negative microbes.

**Feed the good bugs...Starve the bad!**

By doing this, the animal's immune system stays strong, and is key in combatting the challenges of the show circuit, such as stress of competitive mingling, transporting, and summer heat.
