

Performance Feed Poultry Update

Providing a complete line of poultry feeds for all stages of life and growth from chicks to meat and game birds.

- All feeds have been reformulated to meet nutritional requirements for each life stage
- All Layer feeds now have EQE Lite. A product proven to increase egg production and egg mass.
- All mash textured feeds uses courser ground limestone for prolonged calcium absorption, crop and gizzard productivity, minimizes peaks and valleys of calcium availability within the chicken so a constant source is available.

PF 16% Layer Mash item# 2051003

- Increased Calcium levels to 3% for stronger eggs
- EQE Lite added

PF 17% Layer Crumble item# 2053007

- Increased Calcium levels to 3% for stronger eggs.
- EQE Lite added
- Increased protein levels to 17% to sustain high producing laying hens

PF 17% Layer Pellet item# 2052001

- 17% layer pellet mimics the 17% layer crumble just offered in a pellet
- EQE lite added
- High levels of calcium for strong eggs

PF Pullet Grower Mash item# 2051004

- 18% pullet grower balanced with Amino Acids for optimal Growth
- Designed to fill the gap between starting chicks and laying hens
- EQE Lite added to promote egg laying before transitioning to a layer feed
- Probiotics added for improved immune response in growing pullets

Chick Starter Crumble item# 2053004 (Medicated) 2053005 (Non-Medicated)

- Available in non medicated and medicated with Amprolium
- 20% Protein balanced with amino acids and higher energy to meet the demand of growing chicks.
- Celmanax added for strong immune system

22% Meat Bird Crumble item# 2053006

- Can be used for customers wishing to start chicks out at a higher protein level
- Can be used as a “start to finish” on all types of meat birds
- High levels of Lysine for optimal muscle growth
- Pre and Probiotics to help meet the growth and development needs of growing poultry

22% Gamebird Pellet item# 2052002

- Designed for larger poultry and game birds
- Higher Methionine and Lysine levels to meet nutrient demands of larger birds and large flock species.
- Pre and Probiotics to support a healthy immune system
- Higher Vitamin levels

20% Plain Grower Mash item# 2051005

- For all flocks of all species
- Economical maintenance feed
- Prebiotics added for digestive health
