

Pig Starter—Meal

Designed to be fed as the first grain baby pigs get.

| | |
|--|--|
| Amino acid balanced | Eliminates waste of excessive amino acids in a ration while providing adequate lysine, the most limiting amino acid. |
| High nutrient density | Provides nutrients needed for optimum growth in baby pigs. |
| Highly palatable | Encourages consistent consumption. |
| Complete feed | Eliminates need for mixing. |
| Nutritionally balanced and fortified with vitamins and minerals. | Promotes proper growth, development, reproduction and overall health. |
